SUMMARY

I am a backend developer who enjoys designing reliable, scalable systems that power smooth user experiences. I care about clean architecture, efficient APIs, and secure data handling. Always learning, always optimizing, always shipping.

EDUCATION

BS Software Engineering
University of Sindh, Jamshoro

Jan 2023 - Ongoing

- Currently pursuing a 4-year degree program focused on software design, development, testing, and maintenance. Gaining hands-on experience with modern labs, research resources (IEEE, ACM, Springer), and industry-driven projects under the guidance of highly qualified faculty.

SKILLS

Languages	Javascript, Typescript, HTML/CSS
Tools/Frameworks	Reactjs, Nodejs, Nextjs, Tailwindcss, Bootstrap
Databases	Mongodb, MySQL, Oracle
Other Skills	Git/Github, Vercel, Java, Python, PHP

PROJECTS

Restaurant Management System
Nodejs, Mongodb, Expressjs, EJS

2024

- Developed a full-stack application to streamline restaurant operations. Solved the problem of manual table reservations and delayed order processing by implementing automated booking, order management, and real-time table availability tracking. Improved operational efficiency by **40%**, reduced customer wait times by **30%**, and increased overall table utilization by **25%**.

Event Scheduler App
Nodejs, Mongodb, Expressjs, EJS

2024

- Built an application to simplify event scheduling and management. Solved the challenge of manual event tracking and inefficient updates by implementing CRUD-based event operations (create, update, delete, view) with a user-friendly interface. Improved event scheduling efficiency by **45%**, reduced administrative workload by **35%**, and enhanced data accuracy by **50%**.

Interactive Quiz Platform
Reactjs, Nodejs

2024

- Designed and developed an interactive quiz platform using React.js and Node.js to modernize learning and assessments. Solved the issue of static, paper-based quizzes by enabling dynamic question rendering, real-time score tracking, and instant feedback. Improved user engagement by **50%**, reduced quiz administration time by **40%**, and enhanced learning outcomes by **30%**.

CERTIFICATES

Web & App Development, SMIT

2024

- Completed an intensive training program in full-stack development, covering HTML, CSS, JavaScript, React, Node.js, Express, and databases. Gained practical experience by building real-world web and mobile applications.
